

EKILIBRIUM OILY SCALP AND DRY HAIR

Recommended for the treatment of scalps afflicted by the overproduction of oil, accompanied by dry hair.

- RESTORES THE PH BALANCE AND CELLULAR FUNCTION
- PURIFIES THE SCALP, FREEING IT OF EXCESS SEBUM
- DOUBLE REGULATING AND MOISTURIZING ACTION
- GREAT FEELING OF FRESHNESS

PEELING #24

- Balancing concentrate peeling
- Gently exfoliates, boosting the regeneration of the epidermis. Purifies and tones the scalp. Restores the natural pH balance of the hair in conditions of excessive sebaceous secretion. The combined action of bitter orange, mint and salvia extracts provides a comfortable, refreshing sensation.
- With bitter orange, mint and sage
- 75ml

SHAMPOO #09

- Reactivating treatment shampoo
- Its double action allows it to act at the root and scalp level, regulating excess oil, while providing nutrients and emollients from the mid-sections to the ends, making the hair healthier.
- With mint and sage
- 250ml

AQUA-INFUSION #36

- Normalising lotion
- Regulates excess oil on the scalp, balancing its pH. The combined action of Bitter orange, Mint and Sage, provide a tremendous sensation of freshness and lasting comfort for the scalp and hair. Makes the hair silky, flexible and light.
- With bitter orange, mint and sage
- 7ml (10 u. X 7ml)

How to use

Apply to damp, unwashed hair. Begin application by parting the hair at different points on the head. Part the hair in 5 places in the front and in 3 places on the back of the head (between the ears and the nape of the neck). Apply approximately 5 cm of product to each part. Spread evenly over the entire scalp, using your finger tips to massage it in gently, with a circular motion. Leave on for 2 minutes. Rinse with plenty of warm water. Wash the hair with the corresponding CAPILO shampoo.

How to use

Apply to damp hair, massaging it in with circular movements from the forehead to the nape of the neck. Rinse with warm water. Apply a second time.

How to use

Use on freshly shampooed and towel-dried hair. Apply an entire single dose directly to the scalp, part by part. Vigorously massage in with the fingertips to stimulate the microcirculation of the scalp and favor the complete absorption of the product. Do not rinse.

HOW TO APPLY CAPILO TREATMENTS

STEP BY STEP:

- Step 1: apply the peeling (see how to use).
- Step 2: rinse the peeling off with plenty of warm water
- Step 3: wash the hair with the recommended shampoo (see how to use).
- Step 4: carefully towel-dry the hair, always massaging, never rubbing the hair.
- Step 5: apply the lotion (see how to use).
- Step 6: massage the scalp to activate its microcirculation.

LENGTH OF TREATMENT: 3 to 6 months, depending on the type of alopecia and level of persistence.
