

ENERGIKUM PROGRESSIVE HAIR LOSS

Recommended for the treatment of persistent long-term hair loss conditions

- STRENGTHENS AND REDENSIFIES THE HAIR
- STOPS HAIR LOSS
- ACCELERATES HAIR GROWTH
- PROLONGS THE LIFE OF THE HAIR

PEELING #21

- Stimulating concentrate peeling
- Gently exfoliates, boosting the regeneration of the epidermis.
- Purifies and acts by stimulating the microcirculation of the scalp.
- **With thermal spring water, amino acids and a stem cell activator**
- 75ml

How to use

Apply to damp, unwashed hair. Begin application by parting the hair at different points on the head. Part the hair in 5 places in the front and in 3 places on the back of the head (between the ears and the nape of the neck). Apply approximately 5 cm of product to each part. Spread evenly over the entire scalp, using your finger tips to massage it in gently, with a circular motion. Leave on for 2 minutes. Rinse with plenty of warm water. Wash the hair with the corresponding CAPILO shampoo.

SHAMPOO #02

- Energising treatment shampoo
- This potent hair loss treatment is formulated with the exclusive CELL4VITAL technology. Its action slows down hair loss and speeds up hair growth, stimulating the action of the hair bulb and improving the hair's life cycle.
- **CELLULAR TECHNOLOGY: "CELL4VITAL"**
- **With thermal spring water, amino acids and a stem cell activator**
- 250ml

How to use

Apply to damp hair, massaging it in with circular movements from the forehead to the nape of the neck. Rinse with warm water. Apply a second time.

AQUA-INFUSION #31

- Energising Lotion
- Formulated with Cell4vital cellular technology, it activates the hair's stem cells, which act by slowing down hair loss and speeding up hair growth. The combined action of the amino acids and thermal spring water strengthens, nourishes and invigorates the hair bulb.
- **With thermal spring water, amino acids and a stem cell activator**
- 7ml (10 u. X 7ml)

How to use

Use on freshly shampooed and towel-dried hair. Apply an entire single dose directly to the scalp, part by part. Vigorously massage in with the fingertips to stimulate the microcirculation of the scalp and favor the complete absorption of the product. Do not rinse.

HOW TO APPLY CAPILO TREATMENTS

STEP BY STEP:

Step 1: apply the peeling (see how to use).

Step 2: rinse the peeling off with plenty of warm water

Step 3: wash the hair with the recommended shampoo (see how to use).

Step 4: carefully towel-dry the hair, always massaging, never rubbing the hair.

Step 5: apply the lotion (see how to use).

Step 6: massage the scalp to activate its microcirculation.

LENGTH OF TREATMENT: 3 to 6 months, depending on the type of alopecia and level of persistence.
